Phone Record with Mr. Stark, 202 E Maryland St.

Marcos Mateus called Mr. Stark and informed him that he would not be coming over to his in the afternoon, re-stressed to Mr. Stark that we would finish the restoration of the property, if he would allow it, but that LES would not be able to install/construct a new privacy fence as directed by the USEPA. And Mr. Stark to contact the USEPA.

The call lasted 58 minutes, starting around 6:38 PM with C. Lehman, C. Dietrich, C. Padilla, and J. Cardenas present with Mr. Mateus. The conversation was exclusively between Mr. Mateus and Mr. Stark.

Mr. Stark is upset and will not allow the remediation work to be completed. No one is allowed on his property, including the USEPA. The property is backfilled with erosion mat installed. He will allow Mr. Mateus to come to his house if it is to agree to his requests. Mr. Stark did most of the talking for entire call. Repeating himself multiple times, and failing to allow us to complete the restoration process. Mr. Stark also included the following items:

- 1) Felt he should be compensated for staying at home while work is going on instead of caring for his father.
- 2) Indicated that we damaged a playhouse and it should be replaced, which is located in the lot east of the property that he wants scraped and seeded.
- 3) He has night-mares about the tree.
- 4) Has recorded his conversations with Mary Tierney.
- 5) Has a dog and grandchild at the house, and the chain link fence is down.
- 6) He is in bad health.
- 7) Stated that Dave Novak (USEPA) told him that, "EPA not responsible for all of this"; it is between him and the contractor.
- 8) Will not call the USEPA, and does not believe they are involved and that calling him would be to his benefit.
- 9) Believes he has been deceived and tricked.
- 10) He has wire-taps, cameras, and video of everything.
- 11) AC covered with dust, mud, and debris.

12) His brother is in trouble.

13) Does not want to release his 'evidence' such as voice recordings.

14) Said he "has not" contacted the EPA, contacted the media, or started a class action lawsuit with his neighbors.

- 14) Has recorded his voice-mails onto other 'media' so if he lost the voice-mail they would be saved.
- 15) We have left his property wide-open to attack. He is not going to secure his property. Will take pictures every-day to show that his property is not secure.
- 16) His family, children, dog, wife, and himself are at risk for attack.
- 17) Threatened the tree. "It will die". In part this will be due to high temperatures and we will not be allowed to water the tree.
- 18) When asked if LES had permission to put his fence back up and secure his property he said "no."
- 19) When asked if LES had permission to lay the sod and restore his property he said "no."
